

Talks 40 - NDEs... Intrigue and Wonder - Spiritual... Hi, my name's Steve thanks for inviting me here today - nice to meet you all...

I'd just like to talk about some people who had NDE's and visited Heaven... We all have a life plan to complete here first, on this many times difficult planet.

I remember a conversation with a young lady in Macclesfield - she told me she had died on the operating table for about a minute, but in this time she met her gran who had passed away - and they spoke for about half an hour, before my young friend had to come back.

And the time distance is different there to here... Another lady who died they said for 15 minutes, she revealed that she spent maybe a year in heaven, as I say the time is different there to here - the doctor has now said that during those 15 minutes, she felt like she was in heaven for a long time.

On May 6, 2001, Dr. Linda Kramer went to the bathroom in the early morning and then suddenly died - found by her ex-husband who desperately called 911 and was then taken to the hospital.

I found myself standing in a field of flowers. I was observing the mountain range much bigger than Mount Everest, she said - there's a huge mountain range over in the back of wherever I was. I could see skyscrapers. Dubai are like little miniature huts in comparison she said.

I saw lakes, and I'm there interacting with people, becoming one of them. Kramer said that if she was asked she would go there immediately.

Other people have had near-death experiences and claimed to have seen visions of the afterlife such as Tina Hines from Phoenix, Arizona.

In 2018, Hines was on a hike with her husband Brian when she suffered a massive heart attack, she had to be brought back to life four times by Brian and paramedics before she was rushed to the hospital.

Tina was then placed on a defibrillator and when she woke up, the first thing she did was ask for a pen so she could write something on paper - she penned out a scribble resembling "it's real" and when asked what she meant, the young woman pointed up towards heaven.
